
EXECUTIVE SUMMARY

- Highly skilled and recent graduate seeking a fulltime position as a Web-developer. My years of experience and industry knowledge have prepared me for new opportunities where I can utilize my web development skills as well as my proficiency in modern web standards and experience working in an Agile environment
- Proven web application optimization experience, deep knowledge of JavaScript libraries and frameworks and understanding of layout aesthetics
- Ability to perform well in a fast-paced environment, passionate about building new products and Experience delivering rich Web UI experiences
- Develop, create, and modify general web applications software or specialized utility programs

PROFESSIONAL SKILLS

- **Web Development:** JavaScript, ES6, ReactJS, HTML5, CSS3, SASS, XML, JSON, MySQL, MongoDB, Bootstrap, Bulma CSS framework, NodeJS, Angular, Express, Parcel, webpack, Jest, Enzyme, PostgreSQL.
- **Technologies known:** C#, asp.net, java
- **Other:** Prototyping, Wireframing, Data structure and Algorithm, Progressive web apps, Agile Methodologies, Web Application Security, Frontend Development, API development, Backend development, GitHub, Technical Troubleshooting, Single Page Applications (SPAs)

PROFESSIONAL SKILLS DEMONSTRATED

Web Developer

MAR 2017 - Present

Self-employed, Canada

Technical Domain: ReactJS, ES6, HTML5, CSS3, JSON, XML, WordPress, Bootstrap, cPanel, Technical Support, NodeJS, Progressive web apps, express, AngularJS, Prototyping.

- Developed new and extending reusable component-based website using React.
- Provided technical support, handling responsive web design, development, and hosting.
- Collaborated with clients in order to meet the web design and UX/UI requirements.
- Highly curious about new front-end development technologies and thoroughly mastering them with a keen awareness of new industry standards and providing an agile environment to fulfill the project.
- Configuring Hosting website, troubleshooting with windows, Linux, application issues.

Web Developer

AUG 2016 - MAR 2017

[Vishv Infotech](#), Surat, India

Technical Domain: JavaScript, HTML5, ReactJS, CSS3, XML, Bootstrap, NodeJS, JSON.

- Consult with the clients to develop and document requirements for their websites
- Designed layouts to finalize the flow and scope of work
- Prepared functional specifications and involved in the database design for the module
- Created website layouts/UI by using standard tools and coding best practices.
- Involved in analysis, design, development phases
- Implemented new user-facing features, made some valuable suggestions on the design
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities

Jr. Full Stack Developer (Internship)

JUN 2015 - AUG 2016

[Bhaskaracharya Institute for Space Applications and Geo-Informatics](#), Gandhinagar, India

Technical Domain: Java, JSP, GIS, Open layers, HTML5, CSS3, Bootstrap, PostgreSQL, Eclipse Mars, Agile, MS Office, Geoserver.

- Improved satellite images by redirecting satellite images to google maps
- Analyzed, computed and performed tasks on satellite images data such as latitude and longitude to optimize viewing and interaction experience
- Collaborated with a team of three developers to develop a web application tool which was successfully launched for internal use
- Built CRUD operations to handle satellite data in the database as well as on the browser

EDUCATION

Post Graduate in Computer Application Security (GPA: 3.58/4.0) **2018 - 2019**

[Conestoga College](#), Waterloo, Canada

Post Graduate in Computer Application Development (GPA: 3.85/4.0) **2017 - 2018**

[Conestoga College](#), Kitchener, Canada

Bachelor of Engineering in Computer Science Engineering (CGPA: 6.94/10.0) **2012 - 2016**

[Parul University](#), Vadodara, India

WEB DEVELOPMENT PROJECTS

- [Securebox-dashboard](#): Dashboard for Securebox (Reactjs, Bulma, chartjs, NodeJS, express, MongoDB)
- [Portfolio](#): Personal portfolio (Reactjs, Bulma, Bulma timeline, Particaljs, Lazyload)
- [Image Search](#): Search Images from unsplash (Reactjs, Axios, CSS3)
- [Talentmap](#): Web application for our client (AngularJS4, PHP, HTML5, CSS3)
- **Satellite Image Cropping System**: Java-based web application to redirect satellite images on google maps (Java, JSP, GIS, Open layers, HTML5, Geoserver, shape files)

HONORS & AWARDS

- Received \$1000 scholarship from Conestoga College for participation in web security workshop, Canada
- Received an award from your neighborhood credit union for spoke in fundraising Event, Canada
- Dean's honors list in computer application development program in Conestoga college
- Final year project was selected to be showcased at techfest'16 hosted by Parul university, India
- Best final year project award in Computer Science Engineering, India

STUDENT LIFE AND VOLUNTEERISM

- Spoke on "Advanced Youth in Cyber Smart World", fundraising workshop sponsored by crime stoppers, your neighborhood credit union and hosted by Conestoga college. Explained and Lectured on web application security related concepts to around 50 people
- Completed React.js Essential Training (2017) certificate course on Lynda
- Hobbies include playing Cricket, Chess and watching sci-fi movies
